10th International Workshop on Serverless Computing

Online poll question: What are the main challenges in Serverless Computing?
WOSCx1 (June 2022)

Online poll question: What are the main challenges in Serverless Computing?
Answers from WOSCx2 (June 2023)

**What are the main challenges in serverless computing ?**
36 answers

Online poll question: What are the main challenges in Serverless Computing?
Answers from WoSC9 (Dec 2023)

What are the main challenges of Serverless Computing?
36 responses

edge clusters
security   hpc   parallelism
energy   developer experience
debugging   heterogeneous computing
utility   abstraction
cold-start
consistency
workflows   cost   state
optimization   federation   cold start   searchfortheserver
serverless ai   reliability
heterogeneity

Online poll question: What are the main challenges in Serverless Computing?
Answers from WOSCx3 (June 2024)

What are the challenges of Serverless Computing?

29 responses

Online poll question: What are the main challenges in Serverless Computing?
Answers from WOSCx1 (June 2022), WOSCx2 (June 2023), WoSC9 (Dec 2023), WOSCx3 (June 2024)

Online poll question: What are the main challenges in Serverless Computing?
Answers from WoSC10 (Dec 2024)

What are the challenges of Serverless Computing?

40 responses

Online poll question: What is the future of Serverless Computing?
Answers from WOSCx1 (June 2022)

Where is the future of Serverless ?
20 answers

distributed faas
dx for cloud-edge apps
edge
killer applications
data management   hybrid
cloud continuum
service composition
most cloud cycles
workflows
disappears
easy to use
integration

Online poll question: What is the future of Serverless Computing?
Answers from WOSCx2 (June 2023)

What is the future of Serverless Computing ?

33 answers

Online poll question: What is the future of Serverless Computing?
Answers from WoSC9 (Dec 2023)

What is the future of serverless ?

37 responses

Online poll question: What is the future of Serverless Computing?
Answers from WOSCx3 (June 2024)

What is the future of Serverless Computing?

31 responses

microservice
edge computing
domain specific platforms
easy-to-use   high performance
low overhead   programming frameworks
programming model   ai   cost
cheap   sustainability
fully automated   performance portability
faster prototyping   higher utilization
carbon neutrality   high abstraction
composable function layer
trivial integration

big lambdas
everywhere
speed
granularity
server

Online poll question: What is the future of Serverless Computing?
Answers from WOSCx1 (June 2022), WOSCx2 (June 2023), WoSC9 (Dec 2023), WOSCx3 (June 2024)

Online poll question: What is the future of Serverless Computing?
Answers from WoSC10 (Dec 2024)

What is the future of Serverless Computing?

22 responses
